

*Tips from*

# Noirby

When not on your face  
***in the case!***

Take glasses off  
with both hands

Stop back in to have  
your glasses adjusted

Arlington Optical

## EYEWEAR CARE TIPS

Every morning wash your lenses and nosepads with water and a drop of dish soap, then rinse.

Dry your eyewear with a clean cotton cloth (without fabric softener).

Store your eyeglasses in their case so the lenses do not get damaged.

Occasional smudges during your day? Spray cleaning solution on your lenses and wipe with a clean microfiber (don't forget to wash the cloth frequently).

*Noirby says, don't forget to bring your eyewear back for service*
